Product Catalog

Egyptian Italian Co. has started production and sale of disposable surgical gowns, surgical drape sets, medical dressing and medical Gauze with brand in its own facilities in the beginning of 2007 to convey its experiment, in non-woven sector since 2004, to medical sector.

Egyptian Italian Co., having a well-earned place in all over Egypt with brand by quick delivering all kinds of consumable goods, mostly gauze, nonwoven and gloves, which have been produced and as well imported since its establishment, 2007, has hold a prominent place and been an important brand, especially in the markets of Africa, Middle East and Europe with its export activities.

Egyptian Italian Co., making use of ever developing technologies since the Beginning of 2010, improved its all-machine lines and sterilization devices, and extended its production and stock areas to a total 11.000 SM closed area.

Egyptian Italian Co. is steadily carrying on its activities to hold the prominence to be one of the leading brands in the medical sector with high quality and fair price it has been offering in the market with brand.

Vision:

- To become a leading player in the global medical device industry.

Mission:

- Egyptian Italian Co. aims to be a reference for all companies seeking a reliable partner in the development and production of medical devices.
- Our main investments have always been focused on technological innovation of products and professional growth of our collaborators.
- Integration of know-how and experience within a modern and flexible organization guarantees an adequate solution to each need and requirement.
- The mission of our organization is to offer tailor-made solutions aimed at full satisfaction of our customers.

Quality Policy:

- To make production in the medical sector with the latest technology and provide persistence in production quality and a quality management system.
- To enhance the customer satisfaction by taking any suggestions and complaints into consideration.
- To offer products and services in compliance with current laws and regulations by giving due importance to human health.

Control:

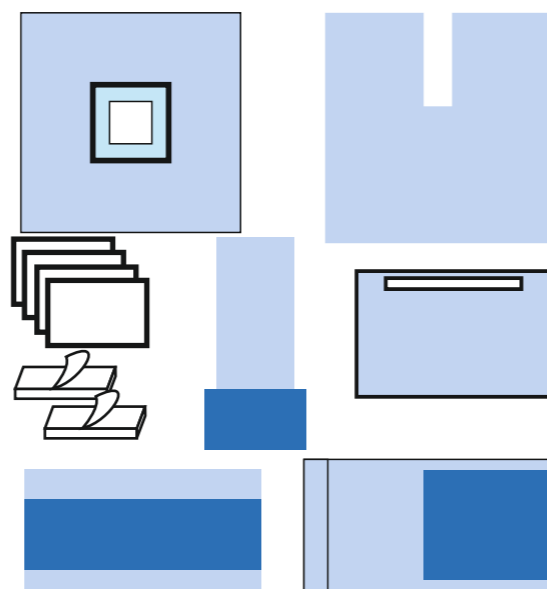

- Documented quality control system in all production phase:
 - Incoming inspection.
 - In-process inspection.
 - Final inspection.
- Quality control plans
- Visual, dimensional, functional, microbial and technical test on products.
- Technical advanced test equipment.

Certificates:

CE2265, ISO 13485, ISO 9001
